

.radio Registration Policy

Definitions

This Registration Policy sets forth the terms and conditions, which govern .radio domain name registrations. In this Registration Policy:

“Registrant”, “You” and “Your” refers to the individual or entity which applies for or wishes to register a .radio domain name.

“Registry Operator”, “We”, “Us” and “Our” refers to the European Broadcasting Union (from now on, EBU), as entity responsible for operating the .radio Top Level Domain, regardless of whether acting directly or through an authorised agent.

“ICANN” means the Internet Corporation for Assigned Names and Numbers.

1. Acceptance of this Registration Policy

1.1 By applying to register a .radio domain name, or by asking to maintain or renew Your domain name, You agree to be legally bound by:

- i. This Registration Policy set forth by the EBU, as amended from time to time;
- ii. The Registration Agreement provided by the sponsoring registrar through which you applied for a .radio domain name; and
- iii. Any other policies mandated by ICANN from time to time.

1.2 You hereby represent and warrant to Us that the statements that you made in Your Registration Agreement with the registrar sponsoring Your .radio domain name are complete and accurate.

25.05.2018

1.3 You agree and acknowledge that it is Your sole responsibility to determine whether Your .radio domain name registration and its use complies with this Registration Policy.

1.4 Your .radio domain name shall be in accordance with the syntax norms established by ICANN and by Us and shall not consist of any of the reserved names established by Us. You acknowledge that a domain name registered against the syntax norms, the reserved names, or this Registration Policy may be cancelled without a refund. We will not be liable in any case for such cancellation.

1.5 We cannot guarantee that You will obtain a desired domain name, even if an inquiry indicates that such domain name is available at the time of Your application.

1.6 You acknowledge and agree that registration of Your chosen .radio domain name does not confer immunity from objection to the registration or use of the domain name, as set forth in Clause 5 below.

2. Eligibility Requirements

2.1 Nexus with the .radio community.

To register and renew a .radio domain name You must be an individual or a legal entity with a nexus to the .radio community. This nexus means that you must be linked to the community at the time of registration and thereafter

Validation of said nexus will be carried out on a case by case basis by the .radio Registry Operator. Examples of a valid nexus are, among others, broadcasting livestreams, radio programs related content, individual radio professional activities, radio-related events, radio-related services or equipment provision and diffusion, and any other in which the registrant provides content for the benefit and advancement of the .radio community.

25.05.2018

Registrants are required to state the intended use for the registered domain name. A false statement of intended use is an indication of bad faith and may be the basis for the suspension of the domain name. 2.2 Names reserved by the Registry Operator

2.2 Names reserved by the Registry Operator

We reserve, at Our sole discretion:

- i. The ability to make certain domain names unavailable for registration, or only allow them to be assigned under certain conditions;
- ii. The right to determine the time and conditions under which said domain names may be registered and/or how they may be used; and
- iii. The right to publish or not to publish the list of reserved terms.

2.3 Name Selection

Name selected by registrants must be connected to the registrant name or activities. Names registered with no connection to the registrant in this sense may be suspended or even cancelled by the Registry Operator.

A. Generic names

Generic names (understood in this context as any word that contains a class or group of things) can only be registered by registrants whose company name, commercial name, or any of its commercial activities associated with that registrant broadcasting business do have a connection with said generic name.

B. Generic names with specific significance for the .radio community

Certain generic names with specific meaning for the .radio community (categories of radio stations of services, news, info, musical styles or genres, radio-related technologies, etc.) may not be registered. Such names should be reserved for community oriented usages. Registry Operator may consider

25.05.2018

specific requests for said names once the appropriate procedure is adopted and published in <https://nic.radio/policies>

Names registered bypassing this provision may be suspended or even cancelled by the Registry Operator.

2.4 Letter/letter .radio domain names registration

All two letter/letter domain names will be reserved by the Registry. In those cases where the Registry allows any letter/letter domain name to be registered, the following provision will apply:

As a Registrant of a letter/letter 2-character domain name, You understand and accept that as a Registrant of a letter/letter 2-character domain name registered under .radio. You must use Your domain name in a manner that does not represent or imply that neither You nor Your business are affiliated with a government or a country-code manager if such affiliation, sponsorship or endorsement does not exist.

You also understand and accept that the Registry Operator may adopt measures to investigate and respond to any reports from governmental agencies and ccTLD operators of conduct that causes confusion with the corresponding country code in connection with the use of Your letter/letter two-character domain, and that those measures may impact Your domain name registration, as they may lead to suspension or even cancellation of Your domain name if Registry Operator believes there has been a contravention of any measures of this Registration Policy.

3. Use of Your .radio domain name

You, Registrant, agree that:

25.05.2018

- a. You are fully responsible for the registration and use of the .radio registered domain name. If You allow another person to use your .radio domain name, You may be held liable for wrongful use of your domain name (i.e. the domain name for which You are the Registrant) by the third party.
- b. You will use the .radio domain name in a way that is:
 - i. generally accepted as legitimate; and
 - ii. conducive to welfare of the .radio community; and
 - iii. commensurate to the role and importance of the domain, according to the judgement that an average user would reasonably make in the context of that domain name; and
 - iv. based on good faith at registration and thereafter.

Names which do not meet these requirements include, among other, those which or whose use may, at the Registry Operator's discretion:

- i. Mislead or deceive the public, for instance as to the geographical place they refer to or the official nature of its origin; or
 - ii. Take unfair advantage of the primary meaning or repute attributed by the public to the selected name; or
 - iii. Hamper the potential content, from a public interest perspective, for the domain name in question, keeping in mind the primary meaning of the name (i.e. whether it is descriptive or generic in nature) and/or the repute attributed by the relevant public to such name.
- c. You will not use Your .radio domain name in violation of any rights of third-parties, including but not limited to third-party's intellectual property rights in the broadest sense.

25.05.2018

- d. You will not use Your .radio domain name to offer third level domain name registrations to independent third parties as a commercial registry type service.
- e. You will not use Your .radio domain name to send unsolicited commercial advertisements in contradiction to either applicable laws or customary acceptable usage policies of the Internet.
- f. You will not distribute malware, abusively operate botnets, phish, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeit, or otherwise engage in any activity contrary to any applicable law.
- g. You will not use Your .radio domain name for the purpose of trafficking in domain names for sale, resale or transfer. Furthermore, You shall not enable, contribute or willingly aid any third party to achieve the said purpose.
- h. You will not use Your .radio domain name in a manner that may damage or bring into disrepute the name, image or reputation of the .radio community. For example, You must not offer nor allow third parties to offer in Your .radio domain name website information or content that is defamatory, abusive, offensive, violent or inciting violence, or political, racist or xenophobic character and generally any content that is contrary to the laws and regulations or morality.

4. Reservation of Rights for Compliance

4.1 We reserve the right, in Our sole discretion, to:

- i. deny or cancel any .radio domain name applied for or registered in violation of the eligibility requirements set forth in Section 2 above (i.e. lack of Community Nexus); and to

25.05.2018

- ii. suspend and/or cancel any .radio domain name registration whose Registrant has lost the nexus with the .radio Community as required in Clause 2.1.

Our decision to grant, deny and/or suspend Your .radio domain name under this Clause 4.1 may be challenged through the .radio Eligibility and Reconsideration Dispute Resolution Procedure (ERDRP) referred to in Clause 5.1 c.

4.2 We and Our accredited registrars reserve the right to, in Our sole discretion, deny, suspend and/or cancel Your .radio domain name registration if:

- a. You fail to follow this Registration Policy, including but not limited to if you directly or indirectly use Your .radio domain name in contradiction with any of the obligations set forth in Clause 3;
- b. You wilfully provide inaccurate or unreliable Registration Data, or intentionally or negligently fail to promptly update it;
- c. You fail to respond for over ten (10) days to inquiries by the registrar or reseller sponsoring the registration and/or by Us concerning the accuracy of Registration Data associated with Your domain name or another incidence associated to Your .radio domain name;
- d. You or third parties reasonably appear to be engaging in illegal activity in the use of Your .radio domain name;
- e. Your domain name reasonably appears to be infringing upon or is likely to violate the rights of third parties;
- f. You engage in a conduct that may reasonably put Us or Our accredited registrars in breach of any applicable Law, governing authority, public policy or third-party agreement; and/or
- g. A Law enforcement agency, a Court of Justice or another relevant authority requests that We do so.

25.05.2018

In case that We determine lack of compliance, either on this Registration Policy or on data accuracy, You will be contacted to clarify and/or correct the situation. We reserve the right to suspend Your .radio domain name during the process. If not solved in due time (30 days), Your .radio domain name will be suspended for thirty (30) additional days. Unless the lack of compliance is corrected by this deadline, Your .radio domain name may be cancelled. You acknowledge and agree that in case of suspension and/or cancellation of your .radio domain name under this Clause 4.2, you will not be reimbursed any registry fees.

You may challenge Our decision to suspend and/or cancel your .radio domain name under this Clause 4.2 pursuant the Eligibility and Reconsideration Dispute Resolution Procedure ("ERDRP"), and which can be found at <https://nic.radio/>

4.3 We also reserve the right to deny, suspend, modify the status, cancel and/or transfer any registration that when deemed necessary to:

- a. protect the integrity, security, and stability of the .radio registry;
- b. comply with all applicable laws, government rules or requirements, requests of law enforcement, in compliance with any dispute resolution process;
- c. avoid any liability, civil or criminal, on Our part as well as Our agents, officers, directors, representatives, and employees.

5. Submission to Dispute Resolution Policies

5.1 You adhere and agree to comply with all applicable ICANN and Our policies and procedures for resolution of disputes concerning Your .radio domain name. Specifically, You agree to submit the following Dispute Resolution Policies, whose challenges may be brought by any legitimate third party against Your .radio domain name registration:

25.05.2018

- The Uniform Domain Name Dispute Resolution Policy adopted by ICANN, which can be found at <http://www.icann.org/en/help/dndr/udrp/policy> ("UDRP"), which is incorporated into this Registration Policy by reference. Any third party challenge of your .radio domain name registration following UDRP Proceedings will be conducted according to the Rules available at <http://www.icann.org/en/dndr/udrp/uniform-rules.htm>, and the selected administrative-dispute-resolution service provider's supplemental rules.
- The Uniform Rapid Suspension ("URS") Policy and URS Procedure adopted by ICANN, which can be found at <http://newgtlds.icann.org/en/applicants/urs>; as well as to any other dispute policies mandated by ICANN, including but not limited to expedited processes for suspension of a domain name by claims pursued by intellectual property right holders; and
- The .radio Eligibility and Reconsideration Dispute Resolution Procedure ("ERDRP"), which sets out the terms and conditions in connection with any challenge to a decision by Us concerning eligibility to register in .radio, and which can be found at <https://nic.radio/>

5.2 You acknowledge and agree that neither the Registry Operator nor its agents may guarantee the peaceful and continued use of Your .radio domain name in the case of a successful challenge by a legitimate third party through one of the above dispute resolution mechanisms or by the order of a Court of competent jurisdiction or another competent public authority.

6. Registration Data and Privacy

This Section informs You about Our processing of Your Registration Data in accordance with the Swiss applicable data protection legislation, ICANN

25.05.2018

mandated policies, European Union's General Data Protection Regulation (GDPR) and other applicable data protection legislation.

6.1 Controllers

ICANN, We as Registry Operator and Your Registrar, and eventually Your reseller, are joint controllers (or Data Processors were specified) for Your data processing that is required to carry out Your Domain Name registration, as described in this Section. The main purposes for such processing includes, among others, domain name transfers and trades, making Your domain name resolve and making available information via the Whois service.

The role of ICANN, a California based US non-for-profit corporation, is establishing the policies on aspects including the collection and publication of data as well as to ensure that the system is secure, stable and resilient.

You can find more information about ICANN here
<http://icann.org>

ICANN contractually requires Us and Your Registrar to process personal data and enforce these contractual obligations, which - in part - are policies established by ICANN's multistakeholder community. ICANN also requires the contracted parties to submit reports regularly.

It is the Registrar's, and/or the resellers', role to offer domain name registrations and potentially other services to the Registrants. According to ICANN's requirements, the Registration Data is collected by the Registrar and then transferred to the Registry.

25.05.2018

The Registry's role is to maintain a central repository of all domain name registrations and to make domain names resolve via the Domain Name System (DNS). The Registry does not offer domain name registrations directly to registrants.

You may contact us here:

L'Ancienne Route 17A

Le Grand Saconnex 1218

Geneva, Switzerland

E-Mail: support@nic.radio

6.2 The data we collect. Registration Data

As a community based TLD we have specific Registration Data requirements. The Registration Data is the full set of data referred to in this Section, including the data of all contacts and the intended use.

Registrars are required to collect data on the following contacts and transfer this data to us.

- Domain Name
- Nameservers
- Registrant Name
- Registrant Organization
- Registrant Street
- Registrant City
- Registrant Postal Code
- Registrant Province
- Registrant Country
- Registrant Phone
- Registrant Phone Ext

25.05.2018

- Registrant Fax
- Registrant Fax Ext

The same data elements as for the Registrant apply to the Admin contact and Tech contact. The same data elements apply also for the Billing contact, being this one optional.

- Intended use: additionally, You must provide the intended use for your domain name

6.3 Legal Basis for the collection

The legal basis for the collection of personal information on these contacts is Art. 6.1.b) GDPR. For the Registrant and the intended use it is to perform the domain name registration in accordance with specific eligibility requirements and for post-registration validation for the contract performance purpose; for the Administrative Contact it is to be able to perform domain name management operations such as transfers, compliance and other; and for the Technical Contact it is contactability in case of technical issues.

When data of third parties is collected, (e.g. where the Registrant, Admin Contact or Tech Contact is different from the person(s) the Registrar collects the data from) the Registrar is responsible for informing those third parties about the terms of this Registration Policy, including all privacy related provisions.

ICANN, Registry and Registrar and, eventually, the Registrar's reseller are Data Controllers.

6.4 Transfer of data to the Registry

25.05.2018

We also require the Registrar to transfer the data mentioned above to us. The legal basis for that is Art. 6.1.f) GDPR since we have a legitimate interest in identifying and investigating patterns of illegal behavior, help with ownership disputes and to operate a central repository of owner data.

For this processing activity, ICANN and the Registry are the Data Controllers and the Registrar is the Data Processor

6.5 Processing of data by third parties

We are using a third party Back-end Registry Service Provider (CORE Association) based in Switzerland, that is a Data Processor of Your Registration Data.

We, as Data Processors, will also pass on the data to an escrow agent as required by ICANN (Data Controller) and the data might be transferred to an Emergency Backend Operator (EBERO) appointed by ICANN in case of Registry failure.

6.6 Disclosure of data

We will not publish personal data on the whois or otherwise disclose your Registration Data to third party apart from the domain name as such except in the cases referred in the following paragraph.

Disclosure of personal data will only occur if there is an established legal basis for such disclosure based on a case-by-case assessment. The legal basis for such disclosure might be Art. 6.1.b) (in case of URDP and URS), Art. 6.1.c) (in case of requests by competent authorities) or Art. 6.1.f) (based on a legitimate third-party interest).

25.05.2018

In the absence of an accreditation model adopted by ICANN, all disclosure requests will be assessed individually.

6.7 Retention of data

Registration data is deleted without undue delay if and to the extent that the purpose of data collection has been reached or ceases to exist. The data processed by us will be deleted at the latest after expiry of statutory retention periods. We adhere to the requirements of Articles 17 and 18 GDPR.

Please note that there might be retention periods required by ICANN. The registration data might need to be stored for a period of one (1) year after the end of the domain name registration by the parties involved.

The following rights can be claimed against the controller:

- Right of access by the data subject. Art. 15 GDPR
- Right to rectification. Art. 16 GDPR. Modifications shall be requested to your Registrar of record or Your reseller as the Registry can not perform such modification on its own.
- Right to erasure ('right to be forgotten'). Art. 17 GDPR Be aware that the request to erase your Data may cause the deletion of your Domain Name.
- Right to restriction of processing. Art. 18 GDPR
- Right to data portability. Art. 20 GDPR
- Right to object. Art. 21 GDPR

You have the right to lodge a complaint with a supervisory authority about the processing of personal data by the controller.

25.05.2018

6.8 Data accuracy

You shall immediately correct and update any incorrect or inaccurate Registration Data during the term of the domain name registration.

6.9 Registration Data handling

We will only process Your Registration Data according to applicable data protection legislation and will take all technical and organizational measures to protect Your Registration Data from loss, misuse, unauthorized access or disclosure, alteration or destruction, as well as undertaking any other security measure required by applicable Law.

7. Indemnification

To the maximum extent permitted by applicable Law, You shall fully defend, indemnify and hold the Registry Operator, harmless from any and all loss, liabilities, damages, costs or expenses, including reasonable attorneys' fees, resulting from any third party claim, action, or demand arising out any dispute in relation to the registration and/or operation of Your .radio domain name, including but not limited to disputes arising out of or in relation with the breach of Clause 3.

8. Policy Modifications

We reserve the right to modify this Registration Policy at any time. We will post the revised Registration Policy at least thirty (30) calendar days before it becomes effective. Unless this version of the Registration Policy has already been invoked by the submission of a complaint or dispute under this Policy, in which event the version of this Policy in effect at the time it was invoked will apply to You until the dispute is over, all such changes will be binding upon You

25.05.2018

with respect to any domain name registration dispute, whether the dispute arose before, on or after the effective date of Our change. In the event that You object to a change in this version of the Registration Policy, Your sole remedy is to cancel Your .radio domain name registration, provided that You will not be entitled to a refund of any registry fees. The revised Registration Policy will apply to You until You cancel Your domain name registration.

9. Governing law and jurisdiction

9.1 This Registration Policy is governed by Swiss law.

9.2 Any legal controversy that may arise from the interpretation or execution of this Policy shall be resolved by the competent Courts of Geneva.
